## **Report on St. Vincent and the Grenadines**

St. Vincent and the Grenadines is ranked at 53rd position on the 2011 Financial Secrecy Index. This ranking is based on a combination of its secrecy score and a scale weighting based on its share of the global market for offshore financial services.

St. Vincent and the Grenadines has been assessed with 78 secrecy points out of a potential 100, which places it towards the top end of the secrecy scale (see chart 1 below).

St. Vincent and the Grenadines accounts for under 1 per cent of the global market for offshore financial services, making it a tiny player compared with other secrecy jurisdictions (see chart 2 below).

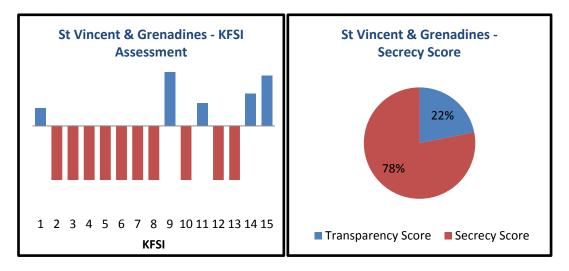

## Next steps for St. Vincent and the Grenadines

1

St. Vincent and the Grenadines' 78 per cent secrecy score shows that it must still make major progress in offering satisfactory financial transparency<sup>1</sup>. If it wishes to play a full part in the modern financial community and to impede and deter illicit financial flows, including flows originating from tax evasion, aggressive tax avoidance practices, corrupt practices and criminal activities, it should take action on the points noted where it falls short of acceptable international standards. See below for details of St. Vincent and the Grenadines' shortcomings on transparency. See this link <u>http://www.secrecyjurisdictions.com/kfsi</u> for an overview of how each of these shortcomings can be fixed.

## **Secrecy Scores**

The secrecy score of 78 per cent for St. Vincent and the Grenadines has been computed by assessing the jurisdiction's performance on the 15 Key Financial Secrecy Indicators, listed below.

The numbers on the horizontal axis of the bar chart on the left refer to the Key Financial Secrecy Indicators (KFSI). The presence of a blue bar indicates a positive answer, as does blue text in the KFSI list below. The presence of a red bar indicates a negative answer as does red text in the KFSI list. Where the jurisdiction's performance partly, but not fully complies with a Key Financial Secrecy Indicator, the text is coloured violet in the list below (combination of red and blue).

This paper draws on key data collected on St. Vincent and the Grenadines. Our data sources include regulatory reports, legislation, regulation and news available at 31.12.2010<sup>2</sup>. The full data set is available <u>here<sup>3</sup></u>. Our assessment is based on the 15 Key Financial Secrecy Indicators (KFSIs, below), reflecting the legal and financial arrangements of St. Vincent and the Grenadines. Details of these indicators are noted in the following table and all background data can be found on the <u>Mapping Financial Secrecy web site<sup>4</sup></u>. This data is the basis on which the <u>Financial Secrecy Index<sup>5</sup></u> is compiled.

## The Key Financial Secrecy Indicators and the performance of St. Vincent and the Grenadines are:

2
