

## Report on France

France is ranked at 43rd position on the 2013 Financial Secrecy Index. This ranking is based on a combination of its secrecy score and a scale weighting based on its share of the global market for offshore financial services.

France has been assessed with 41 secrecy points out of a potential 100, which places it in the lower mid-range of the secrecy scale (see chart 1 below).

France accounts for over 2 per cent of the global market for offshore financial services, making it a small player compared with other secrecy jurisdictions (see chart 2 below).

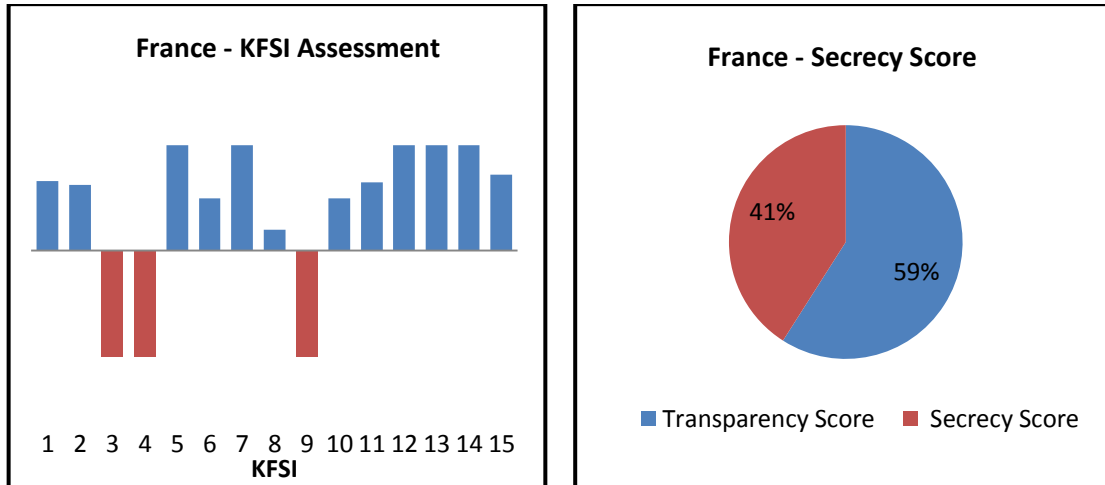

### Next steps for France

France's 41 per cent secrecy score shows that it must still make major progress in offering satisfactory financial transparency. If it wishes to play a full part in the modern financial community and to impede and deter illicit financial flows, including flows originating from tax evasion, aggressive tax avoidance practices, corrupt practices and criminal activities, it should take action on the points noted where it falls short of acceptable international standards. See below for details of France's shortcomings on transparency. See this link <http://www.financialsecrecyindex.com/kfsi> for an overview of how each of these shortcomings can be fixed.

### Secrecy Scores

The secrecy score of 41 per cent for France has been computed by assessing the jurisdiction’s performance on the 15 Key Financial Secrecy Indicators, listed below.

The numbers on the horizontal axis of the bar chart on the left refer to the Key Financial Secrecy Indicators (KFSI). The presence of a blue bar indicates a positive answer, as does blue text in the KFSI list below. The presence of a red bar indicates a negative answer as does red text in the KFSI list. Where the jurisdiction’s performance partly, but not fully complies with a Key Financial Secrecy Indicator, the text is coloured violet in the list below (combination of red and blue).

This paper draws on key data collected on France. Our data sources include regulatory reports, legislation, regulation and news available at 31.12.2012<sup>1</sup>. The full data set is available [here](#)<sup>2</sup>. Our assessment is based on the 15 Key Financial Secrecy Indicators (KFSIs, below), reflecting the legal and financial arrangements of France.
